

DHANRAJ P

AWS & DEVOPS ENGINEER

Chennai, TamilNadu | +91 8838232829 | dhanrajp3005@gmail.com

CAREER OBJECTIVE:

DevOps Engineer with 3+ years of experience in AWS cloud infrastructure, CI/CD automation, and system reliability engineering. Experienced in designing scalable infrastructure using Terraform, implementing automated CI/CD pipelines with Jenkins and Git, and managing containerized workloads using Docker. Skilled in Linux system administration, infrastructure monitoring, and cloud networking to support high-availability production environments.

PROFESSIONAL SUMMARY

- AWS & DevOps Engineer with over 4.5 years of overall experience and 3 years specifically focused on AWS DevOps engineering.
- Proficient in seamlessly integrating development and operations functions to optimize software delivery pipelines.
- Skilled in leveraging AWS services such as EC2, S3, Lambda, and ECS to automate infrastructure provisioning, deployment, and scaling processes.
- Extensive experience in implementing robust CI/CD pipelines using Jenkins, GitLab CI/CD, and AWS CodePipeline.
- Strong background in infrastructure as code (IaC) using Terraform and CloudFormation.
- Expert in container orchestration with Kubernetes and Docker.
- Proficient in monitoring and logging tools like CloudWatch, ELK Stack, and Prometheus.
- Proven track record in proactive monitoring, troubleshooting, and optimizing cloud-based environments for maximum performance and availability.
- Committed to continuous learning and staying updated with emerging technologies, including serverless computing, microservices architecture, and DevOps best practices to drive innovation and operational excellence.

TECHNICAL SKILLS

- AWS Cloud: EC2, S3, Lambda, ECS, CloudWatch, Auto Scaling, ECR
- DevOps: CI/CD, Jenkins, GitLab CI/CD, AWS CodePipeline
- Infrastructure as Code (IaC): Terraform, CloudFormation
- Configuration Management: Ansible
- Containerization: Docker, Kubernetes
- Monitoring and Logging: Nagios, Site24x7, ELK Stack, Prometheus, Grafana
- Scripting: Shell Scripts, Python
- Version Control: Git
- Operating Systems: Linux, Windows
- Other Tools: AppDynamics, Splunk, MySQL, Jira
- Application Scaling, Microservices Architecture, API Development

EDUCATION

- | | |
|------|--|
| 2019 | B.tech Mechanical Engineering,
Dr.M.G.R. Educational and Research Institute, Chennai, TN. |
| 2016 | Diploma of Higher Education, Mechanical Engineering,
V.Ramakrishna Polytechnic College, Chennai, TN |

PROFESSIONAL EXPERIENCE

Sun TV Network Limited (September 2023 - Present) DevOps Engineer

- Key Contributions
- Managed scalable AWS cloud infrastructure supporting OTT streaming services used by thousands of concurrent users.
- Automated infrastructure provisioning using Terraform, improving environment consistency across staging and production.
- Designed and implemented CI/CD pipelines using Jenkins and Git, reducing manual deployment efforts.
- Containerized applications using Docker to ensure consistent deployment environments.
- Configured Nginx reverse proxy for load handling and application routing.
- Implemented infrastructure monitoring using Nagios and AWS CloudWatch to ensure system availability.
- Managed Linux servers, performed patching, and automated operational tasks using shell scripting.
- Worked with development teams to improve release cycles and deployment reliability.

Target Bay (March 2023 - September 2023) AWS & DevOps Engineer

Project: Customer Review & Marketing Automation Platform

Key Contributions

- Maintained AWS infrastructure for eCommerce platforms handling large volumes of customer review data.
- Implemented CI/CD pipelines using Jenkins to automate build and deployment processes.
- Containerized services using Docker, enabling faster and more consistent deployments.
- Automated infrastructure setup using Terraform Infrastructure as Code.
- Managed Linux servers and performed system administration tasks.
- Implemented monitoring and alerting using Nagios to track server and application health.
- Managed AWS networking components including VPC, subnets, and security groups.

Environment

AWS, Jenkins, Docker, Terraform, Git, Linux, Nagios

BHARAT STARS SERVICES PRIVATE LIMITED Mar 2022 – Dec 2022

Apprentice Bharat Petroleum Corporation Limited (BPCL) | Chennai, TN Nov 2020 – Nov 2021
